

Install IoT

WORRY-FREE, TURN-KEY IOT

Hire expert IoT service technicians starting from \$100/hr

ARCHITECTURE • INSTALLATION • TRAINING • MAINTENANCE • SOURCING • DECOMMISSION

Sales and Training

We help you close sales by showing up to prospects sites and installing your devices ahead of the competition. Trust our team to get you to the finish line.

Installation and Maintenance

Install IoT provides turnkey installations for any type of IoT device: cameras, sensors, controllers, gateways, and more. We'll also be your field maintenance team - anytime something goes offline, trust us to get it up and running.

Architecture and Hardware

Not sure how to connect everything up? We'll provide you with specialized support to architect the solution your client needs and help you source the best hardware.

Who are we?

We know how difficult it is to send in-house technicians to do sales demos, pilot installations, and full-scale deployments. **Install IoT is your superpower** - a team of expert technicians trained on how to deploy and run your solution. **Book us for anything from sales demos to enterprise installations** and crush your sales goals.

Why Install IoT?

- 1 We cover travel in all covered regions - just pay for what you need.
- 2 Trained, expert IoT technicians
- 3 We are IoT-only - rest easy knowing our team can handle your toughest IoT jobs.
- 4 Available as fast as 24 hours for emergencies and rapid response.
